

KEN RUSSELL: ENGLANDS DIRECTOR AND MUSIC LOVER

GREAT VISIONARY FILM

KEN RUSSELL: ENGLANDS GREAT VISIONARY FILM DIRECTOR AND MUSIC LOVER By Jeremy Mark Robinson. Foreword by actress Sammi Davis (star of *The Rainbow*) A filmmaker like no other, Ken Russell remains one of cinemas extraordinary talents, a creator of masterpieces such as *The Devils*, *Tommy* and *The Music Lovers*, and a body of work that flies from the pastoral, Romantic lyricism of *Delius: Song of Summer* and *Elgar* to the wild extremes of *Lisztomania*, *Altered States* and *Mahler*. Ken Russell is the greatest living filmmaker in Britain. Even though he died on November 27, 2011, hes still somehow very much alive. After the death of Michael Powell in 1990, who else was there? As an image-maker, Russell is not only a total natural, he has very few peers among filmmakers - not only in Britain; but also around the globe. Russells inventiveness seems to know no bounds, and his films are cascades of images, so much that it cant all be taken in on the first viewing of a picture. Russell does everything a great director and a great artist should do, and then he does so much more. Why do we love Ken Russells movies so much? For many reasons: the spirituality, such a rare commodity in recent British cinema: Russells films are not afraid of addressing spiritual issues. The poetry. The music - no other filmmaker of the same era in Britain has been such a tireless and enthusiastic promoter of music. The dancing - no other British film director has included so much dance in their output (and very few directors anywhere!). The British popular culture elements. The English landscape. The romance and romantic sensibility His stories of artists and creativity. His interviews and public persona, appearing on everything from websites and YouTube to silliness like British TVs *Big Brother*. His encouragement to young filmmakers and his teaching. Ken Russell has been

dubbed a fish and chips Fellini, the enfant terrible of British cinema and the Wild Man of the BBC. The two periods of classic Ken Russell work would be the TV documentaries of the early-to-mid 1960s (with 1962s Elgar as the highpoint that everyone remembers), and the feature films of the late 1960s to late 1970s (with Women in Love and Tommy being the high watermarks among audiences if not critics). Certainly, its with Women in Love that Ken Russell begins that extraordinary run of feature-length movies: Women in Love is followed by The Music Lovers (his favourite movie), whichs followed by The Devils, whichs followed by The Boy Friend, whichs followed by Savage Messiah, whichs followed by Mahler, whichs followed by Tommy, whichs followed by Lisztomania. Thats a run of eight amazing movies. You could add Valentino and Altered States. This book explores all of Ken Russells key movies and television productions, his themes and symbols, his filmic style and direction, and his use of music and visuals.

Plus chapters on Ken Russells unmade productions, a biography of the director, quotes by Russell, resources, video and DVD availability, the fans on Russell, and a Foreword from actress Sammi Davis (star of The Rainbow). Fully illustrated, with 291 images from all of Russells films. Bibliography and notes. ISBN 9781861715081. 816 pages. www.crmoon.com
