

# Regulating the Financial Sector in the Era of Globalization: Perspectives from Political Economy and Management

The world's financial landscape is transforming as economies become increasingly interdependent. In *Regulating the Financial Sector in the Era of Globalization*, Zuhayr Mikdashi examines the role of public authorities and of business executives in the prevention, moderation, containment and resolution of financial problems. The book features a foreword by William C. Hunter, Senior Vice President and Director of Research at the Federal Reserve Bank of Chicago.
