

Umikers Management Skills For The New Health Care Supervisor

Today's healthcare supervisors are continually faced with smaller budgets, fewer workers, and greater responsibilities. The seventh edition of Umikers Management Skills for the New Health Care Supervisor continues to provide valuable information for future healthcare managers and supervisors who must address these challenges daily. Written primarily for those who have little to no management training, Umikers offers practical suggestions for improving effectiveness, both as a supervisor and as an organization. Ideal for students in undergraduate, community, and career college programs, author Charles R. McConnell maintains Dr. William Umikers' clear, jargon-free writing style.
